

ABDORAD 2019

Speakers

24.5 RANZCR CPD points

Prof Mukesh G. HARISINGHANI

Mukesh G. Harisinghan is Professor of Radiology at Harvard Medical School. He is the Director of Abdominal and Pelvic MRI and Faculty Abdominal and Interventional Radiologist at the Massachusetts General Hospital Boston.

Prof. Harisinghan has been actively involved in teaching for more than 20 years, the last 15 years at MGH. Author of over 150 peer reviewed articles, 20 book chapter, 150 posters, and editor of Primer in Diagnostic Imaging 3rd to 5th editions. He has been an invited speaker, giving hundreds of lectures in North America and internationally. His research interests lie in integrating the principles of bench research with improved clinical practice, with special emphasis in the development novel contrast imaging agents. He has worked with clinical colleagues to implement newer imaging protocol, through his efforts, MRI has become an integral part of staging of patients with renal, bladder and prostate tumors.

He serves on International and North American radiology organization committees such as RSNA, ISMRM, Society of Abdominal Radiology, and Society of Computed Body CT-MR. He is an examiner by the American Board of Radiology in evaluating residents for genitourinary radiology.

Prof Kartik S. JHAVER

Dr. Kartik S. Jhaveri, is the Director of Abdominal MRI and Faculty Abdominal Radiologist in the Joint Department of Medical Imaging of the University Health Network, Mount Sinai Hospital and Women's College Hospitals. He is also the Director of Continuing Education for the Dept. of Medical Imaging of the University of Toronto and has received multiple teaching awards by the University of Toronto residency and fellowship programs. He is currently an Associate Professor at the University Of Toronto Faculty Of Medicine.

He has lectured internationally including at the Radiological Society of North America and International Society of Magnetic Resonance in Medicine. He also leads multiple grant funded research initiatives in body MRI. His areas of clinical and research expertise are focused on hepatobiliary diseases, renal and rectal cancer. He has authored several peer reviewed publications, book chapters, clinics and scientific presentations. He serves on International and North American radiology organization committees such as RSNA, ISMRM, Society of Abdominal Radiology, and Society of Computed Body CT-MR. He has also served on research committees of the Society of Abdominal Radiology and SCBT-MR.
